The following pages show a levy / spending comparison year over year for the taxing authorities for properties that are located within Nunda Township.

The table shows a ranking of each of the taxing authorities based on the levy / spending that is requested. The ranking assigned to each of the tax rates is based on highest to lowest of each taxing authority.

Please note some of the taxing authorities have outstanding bonds that are not part of the requested levy listed, however they are included when calculating the tax rates that are shown on the tax rate history page.

Assessment year 2018 shows an overall increase in the assessment roll for Nunda Township in terms of total Equalized Assessed Value of 3.95%.

When the assessment roll expands and spending by the taxing authority remains flat or is reduced, we will all begin to experience lower tax rates.

The information on the following pages, coupled with the understanding of your property assessment should result in a better understanding of your tax bill when it arrives in May.
